## **Targets**

“No Shoot” Targets - Stages of fire may involve designated "no shoot" targets, denoting hostages or innocent bystanders. Anyone shooting a “No Shoot” will be heavily penalized as in real life.

These targets may be designated in various ways, and may require a judgment call by the competitor. An example of this may require the competitor to engage only targets that are visibly armed, with unarmed targets being considered "no shoot" targets.

**Scoring Steel** - Steel will consist of round or square plates, "pepper popper"-style targets, or “flash” / “flag” targets. All steel targets must fall or turn 45 degrees to be scored. Steel may not be engaged closer than 10 yards.

**Hardcover Steel** - "Hardcover" targets may be used to obscure other scoring targets from point of view or aim.

**Reactive Targets** - Other reactive targets may be deployed during a course of fire. Descriptions will be given during the match briefing.
